We would like to welcome you to our dental practice and outline our policies and goals. We support the practice of modern dental care based on well-established science. Through proper preventive care and regular exams, we believe that most patients can expect to keep all of their teeth for many years to come. What our patients can expect from us:

1. A high degree of professional skill and quality services;
2. The greatest efforts to make your office visits as comfortable as possible;
3. Minimization of costly reconstructive work through proper preventive care;
4. Fees that are fair and reasonable for the services provided;
5. Dedication to your lifelong oral health.

In return, what we expect from our patients:

1. Cooperation with scheduling and keeping appointments;
2. Disclosure of all pertinent health information;
3. The following of all professional advisement, including post-treatment care and regular maintenance visits;
4. Payment of fees owed at the time of service;
5. A conscientious and diligent effort toward daily oral hygiene.

In order for our newly formed relationship to be mutually satisfying and beneficial, we ask that any time you have a question or concern about any dental treatment services, fees for services, or the attitude of our dental staff, that you will discuss it with us openly and promptly. Misunderstandings or lack of communication are the only obstacles to our continued friendship and professional relationship. We look forward to serving you.

Sincerely,

The Staff of Point Family Dentistry
